

Requirement Analysis of a Marriage

Take the role of an analyst and identify Stakeholders, Stakeholder goals, processes, documents and constraints in the domain of organizing and having a marriage.

Choose a tool to discover the requirements of someone who is already married.

Write down the most important requirements (max. 1 A4 page).

Apprenticing

Become familiar with another monitoring technique, called apprenticing. When, in which circumstances is apprenticing a recommended tool? How can apprenticing be combined with other techniques. Try out apprenticing in a domain of your choice.
